During the meeting

All phones and computer access to the meeting should be muted at all times when the speaker has not been recognized by the VHFA Board Chair. The moderator of the web meeting will be muting microphones as needed. To mute your microphone via computer or mobile device, click the “Mute” icon in the bottom left corner of your screen.

Once in the meeting, you can change between “speaker view” where the person speaking takes up much of your screen with a few others showing at the top, and “gallery view” where you can see up to 25 people at a time on your screen. If you have any technical difficulties during the meeting, please call Dave Chien at 802-652-3401.
